

Road Trip Nation Video Archive – Quick Guide

Road Trip Nation Videos in Family Connection

The Roadtrip Nation interview archive is a digital career exploration tool that enables students to discover new pathways, interests, and ambitions. The archive includes more than 3,500 full-length video interviews chronicling the diverse personal stories of leaders who have turned their interests into their life's work.

Interviews are conducted by young people who have candid conversations with leaders about their successes and failures and how they were able to navigate life's many challenges to pursue endeavors that matter to them. By hearing how successful people overcame challenges, students can learn from leaders and apply those insights to their own lives.

Students can access the archive by logging into Family Connection and going to the **Careers** tab. From here, students can click **Explore More** to search the interview archive. **There are five search options.**

- **What's Your Road? feature** – Students find their road with the *What's Your Road?* feature by choosing a foundation and two interests. Then, the *What's Your Road?* feature will match the student with leaders with similar roads to their own.
- **By playlist** – Students choose a pre-assembled playlist consisting of video interviews from leaders.
- **By interests** – Students choose from the listed interest categories (e.g. medicine, art, business) and explore interviews in fields that align with their interests.
- **By themes** – Students choose from the listed themes (e.g. risk, failure, determination) in which leaders specifically address their own trials and learning related to the particular theme.
- **By leaders** – Students choose from all the leaders interviewed and can filter the list as needed.
